

SPEAKING EVENT FEEDBACK

Cindy Scinto, author and speaker

September, 2008 “Cindy is a gifted writer and teacher of God’s Word. She has spoken for our church on numerous occasions and is well prepared, punctual, and very impacting on her listeners. Cindy holds the attention of her audience and communicates in a clear and uplifting manner the topic she addresses. I highly recommend her for any speaking event.”

February, 2009 “As Cindy shared her story with our church, her balance of humor and deep significance made an understandable and lasting impact on many people. Her teaching has begun a dynamic level of interpersonal connecting that we hadn’t had before at New Life. She offered our congregation a sense of hope and sincere perspective.”

“Cindy Scinto inspires and encourages while teaching through firsthand accounts of her amazing life. God focused and relational, her spiritual journey mired with hardship and pain, caused me to self reflect and enabled me reach out to God with her.”

“Every month I have my students do something kind as a class requirement. They have to do it, write about what they did, and have their parents sign it. These are due next week, so today I asked the class how many had already done the assignment for the month. One girl said she chose what she would do but wasn't able to quite finish the assignment because she decided to be an organ donor. I was thrilled. After school the girl's mom told me what an impact your presentation made on her and her brother. The entire family—except for the little brother, decided to be organ donors after they talked about you and what you told them—my class has 4 sets of siblings. Thank you again for making a difference in the lives of my students—and me too!

“Cindy Scinto was a guest speaker for the Stephen Ministry program at our church. She spoke to our group about how to minister to people who need to rediscover hope in their life. Her personal testimony and her suggestions have encouraged and enlightened our Stephen Ministers as they meet with their care receivers during troubled times. God blessed us through her message.”

December, 2009 “I wanted you to know that Cindy did a GREAT job! She seems to really like kids and our kids responded well to her presentation. I even had some students who missed part of her speaking one period and came back another period to hear the rest. I wish they would want to do that when I’m teaching.”
